DETAILED ACTION

1. Claims 4-11 are pending. Applicant cancelled claims 1-3 and 12-15.
2. Pursuant to the May 21, 2004 Amendment and REMARKS the Office Action is withdrawn.
3. Further updates to the specification, e.g. recent patent numbers related to related applications, is requested.

Claim Rejections - 35 USC § 112

4. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.
5. Claims 4-11 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 1, line 4, "by way of one of a" is not clear.

Claim 1, line 10, "over one of the" is not clear.

Claim 9, line 3, "by way of one of a" is not clear.

Claim 9, lines 12, 13, "at least one of a" is not clear.

Claim Rejections - 35 USC § 103

6. Claims 4-11 are rejected under 35 U.S.C. 103(a) as being unpatentable over Bull, US 6,735,574.

Bull discloses a computer system for a system for tracking worker productivity transfer of data contained in a database comprising, a graphical user interface (GUI), e.g. 110, 120, and a protocol medium. Bull does not discloses a wireless communication for employee time keeping and expense entry.

However, to support a subsequent generation of time keeping and expense report text messages over the wireless system of Bull would have been obvious to one of ordinary skill in the art. Doing such would incorporate well known document storage and retrieval means with a data storage system. To have provided the data transfer to comprise a short message service, page or e-mail for the computer system of Bull would have been obvious to one of ordinary skill in the art. Doing such would substitute well known data transfer means for the Bull system.
